UKCI Holdings Ltd (hereinafter referred to as «Parent») AND you (hereinafter referred to as «Customer»)

HAVE

entered into a Customer Master Agreement effective from January 30, 2018 of which this «Customer Hosting Product Agreement Extension» is a part.

WHEREAS Parent provides Web, Virtual Private Server (VPS) and Email Hosting Services;

WHEREAS the Customer wishes to place an Order for Web, VPS and/or Email Hosting Services («Hosting Order») through the Parent;

NOW, THEREFORE, for and in consideration of the mutual promises, benefits and covenants contained herein and for other good and valuable consideration, the receipt, adequacy and sufficiency of which are hereby acknowledged, Parent and the Customer, intending to be legally bound, hereby agree as follows:

1. Rights of Parent

While certain attributes of the Hosting Order may consist of unlimited resources, Customer recognises that the Hosting Order is a shared hosting service, and that the Parent has the right in its sole discretion to apply any hard limits on any specific attribute or resource on the Hosting Order at any given time without notice in order to prevent degradation of its services, or in case of any breach or violation or threatened breach or violation of this Agreement, or in case Parent learns of a possibility of breach or violation of this Agreement which Parent in its sole discretion determines to be appropriate, or to protect the integrity and stability of the Parent Products and the OrderBox, or to avoid any liability, civil or criminal, on the part of Parent and/or Service Providers, or for any other appropriate reason. The Customer agrees that Parent and Service Providers, and the contractors, employees, directors, officers, representatives, agents and affiliates, of Parent and Service Providers, are not liable for loss or damages that may result from any of the above.

2. Terms of Usage

Customer, or its contractors, employees, directors, officers, representatives, agents and affiliates and OrderBox Users, either directly or indirectly, shall not use or permit use of the Hosting Order, in violation of this Agreement, and for any of the activities described below -

(9) Use the email service for sending or receiving unsolicited emails.

(10) Use the email service for sending or receiving emails through automated scripts hosted on your website. For sending out promotional emails, email campaigns, etc., we recommend using the Mailing Lists feature rather than using your email account. Upon detection of such mails going through the regular mailing system, such mails will get classified as spam even though the recipient might have opted in for receiving such mails. This would lead to immediate cessation of mail sending capabilities for the user or the domain name. Frequent violation would lead to permanent suspension of the domain name.

(11) Sending mails to invalid recipient email addresses. On receipt of too many bounce back messages due to invalid recipient email addresses, the user sending such mails would get

blocked. Frequent violation would lead to permanent suspension of the domain name.

(12) Sending mails from an email address that is not valid and which results in triple bounces would result in suspension of the user sending such mails. Frequent violation would lead to permanent suspension of the domain name.

(13) Send emails with malicious content. Such emails could be emanating from user(s) whose machine(s) are infected with a virus or malware and such activity could be happening without the user(s) knowledge or user(s) could be unknowingly sending out emails whose receivers may deem them as unsolicited.
